

Rabbit Food Mobile

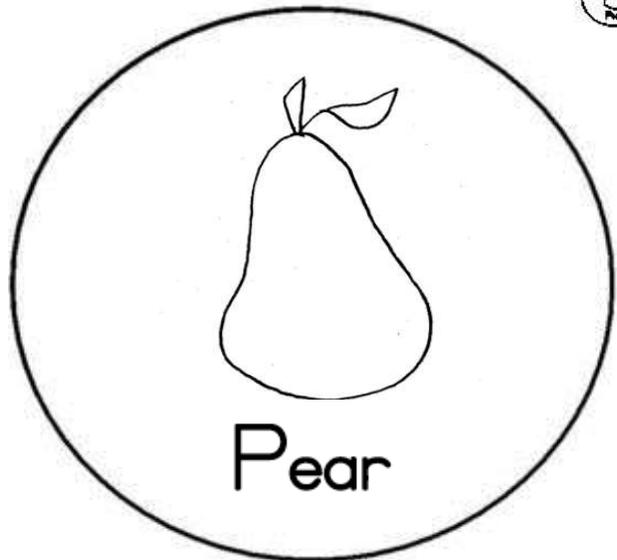

Need: paper plate and yarn.

Children color and cut out food circles. Glue two circles together so that a food shows on both sides. The mobile hangs better if the paper plate is cut in two. In the center of a paper plate print "Rabbit Food" add bunny picture to top of mobile. Punch four holes along the bottom rim of the paper plate. Punch hole in food circles. Use yarn to tie the food circles to the paper plate. Punch hole at the top of paper plate, add yarn and hang from the ceiling.
